

Closed windows. When window is open, cost of energy rapidly increases.

Closed door. When door is open, cost of energy rapidly increases.

Cooling only when you are in the room. Air-con no working when you are out of room (cost of energy rapidly increase.)

No over cooling. Recommendation is 6°C less than outside temperature. More °C than 6°C, could cause healthy issues (cold ...).

Cleaning filters 1x per month at least. Lukas can do it on 15th each month.
